Preface

In 1989, the federal government introduced a standardized format for the NUANS report. This standardization ensured not only uniformity in regards to the display of the fields on the report, but also uniformity of the codes appearing on the report. The following section discusses the layout of the report and an interpretation of the information displayed.

4.1 The NUANS Report Layout

Normally, each citation will consist of two lines of information displayed in the following manner.

LINE 1

COMPANY NAME	PROV CODE	FILE NUMBERS	EXTRA PROV	DATE OF INC/REG
50 CHARACTERS	4 CHARS	8 CHARS	6 CHARS	12 CHARS

LINE 2

CO. NAME (word wrap) or CITY (14 chars) & Business STATUS	COMPANY TYPE	LEGAL STATUS	DATE
Activity Descriptor (20 chars) & Status (10 chars) UP TO 50 CHARS	13 CHARS	10 CHARS	7 CHARS

LINE 3 (occasional only)

CITY (14 chars) & Business Activity Descriptor (20 chars) for long names only
--

4.2 Example of report layouts

The following is an illustration of different report types, as they would appear on the report.

4.3 Description of the Report Layout

The NUANS report layout is similar for all corporate name searches. Their features include

- The location of the field elements is more definitive.
- The information displayed is simpler and hence more understandable to the average NUANS report reader.
- The information displayed for each incorporation is the same. This, in keeping with the general overall "keep it simple" principle. Mnemonics uniquely specific to a given province is no longer displayed, with some exceptions.

4.4 Fields on the NUANS Report

The location of the field elements are more standardized. The following is a list of the fields

- i) Company Name
- ii) Jurisdiction
- iii) File Number
- iv) Extra provincial designator
- v) Date of Incorporation
- vi) City
- vii) Business Activity Descriptor
- viii) Special Status Field
- ix) Company Type (Bus. Corp. by default)
- x) Legal Status (Active by default)
- xi) Legal status Date

(i)		(ii)	(iii)	(iv)	(v)
XYZ INDUSTRIES LIMITED		ON	123456	CD	86Fe02
OTTAWA	"Misc.Services,N.E.S." XXXXXX	(blank)		New.Amalg	88No29
(vi)	(vii)	(viii)	(ix)	(x)	(xi)

i) Company Name

The report will permit up to the first 60 characters of a name, wrapped around on two lines of information. The NUANS records are comprised of 39 character positions (internally) and therefore, certain long names will be truncated, based on the word content. A name containing several distinctive words will be more adversely affected than a name consisting of more common NUANS dictionary words. NUANS dictionary words are stored differently in the database. Basically, NUANS will display:

- the first 59 characters of the proposed name at the top of the report.
- the first 39 characters of the proposed name within the body of the report
- the first 60 characters of a name cited within the body of the report
- the first 40 characters of an MSK

These limitations are within the NUANS system, and would require software enhancements to rectify. The entire name is added to the database and is searched. This limitation is strictly related to the display (look and appearance) of the name on the report.

ii) Jurisdiction Codes

The Provincial Code indicates the province in which the company was incorporated. This code is a two character standardized code.

CD	Canada	BC	British Columbia	MB	Manitoba
AB	Alberta	NF	Newfoundland	NS	Nova Scotia
NB	New Brunswick	ON	Ontario Corporate	OB	Ontario Business
NT	North West Territories	QC	Quebec	SK	Saskatchewan
PE	Prince Edward Island				
YK	Yukon				

iii) Provincial File Number

The file number is the provincial reference number assigned to the company upon registration. This number is left justified.

iv) Extra Provincial Designator

This jurisdiction code represents the jurisdiction from which an extra provincial corporation originated. The code to the left of the file number represents the jurisdiction where the corporation is registered. When the extra-provincial jurisdiction is not known, the mnemonic EP will appear to the right of the provincial file number.

v) Date of Incorporation or Registration

These dates have been standardized. The format is Year, Month, Day (YYYYMMDD). The month appears as a two-digit character code as indicated below:

Ja	January	Jl	July
Fe	February	Au	August
Mr	March	Se	September
Al	April	Oc	October
Ma	May	No	November
Jn	June	De	December

The days will be zero filled; thereby a company incorporated on June 5, 1988 will appear as 88Jn05

vi) City

For average length names, the city (if available) will appear on the second line. For long names the city will be displayed on the third line.

vii) Business Activity Descriptor

NUANS will print a 20 character Business Activity Descriptor for a company, when available. It is a free format field and it always appears on the same line as the city. The only jurisdiction, which provides a Business Activity Descriptor, is Manitoba.

viii) Special Status Field

This is the only field, which could be considered a floater. It only appears for the following type of names:

Mnemonic Code	Description
FR-XTS	French version of name exists (Alberta)
FOREIGN	Corporation is foreign controlled (Alberta)
NOTATION	Name notation (Manitoba)
CONVERSION	Name Conversion (Manitoba & Saskatchewan)

ix) Company Type

Company type information has been simplified and now appears in a combination of uppercase and lowercase characters. By default, the company type information will be a profit corporation. Other company types will have some of the following Mnemonics:

Bus.Name	Business Name or Style or Partnership
Ltd.Part	Limited Partnership
NonProfit	Society or Non Profit corporation
Special	Special Act Names
CreditUn	Credit Unions
Trust	Trust/Loan Companies
Insurance	Insurance
Bank_Act	Bank Act
Co-Op	Cooperatives
Reserved	Reserved or proposed by Province
PROP.XXXXXXX	NUANS Proposed Name (XXXXXXX = search house mnemonic)

A mnemonic MISC. is used for the following company types:

Libraries	Universities	Hospitals	Cemeteries
Mining Co.'s	Seminaries	Tramways	Railways
Electricity Co.'s	Crown Corp.	Parish/Religious	Lodge
Pension Fund	Board of Trade	Union Locals	Social Clubs
Agr/Lait			

x) **The Legal Status Field**

The Status of an incorporation will be interpreted as ACTIVE, by default. The Status Mnemonics are:

Mnemonic Code	Status	Explanation
Inactive	Inactive	Reason for inactivity not available
Dissolved	Inactive	Dissolved
Diss.Vol	Inactive	Voluntary dissolved
Cancelled	Inactive	Cancelled by any of: i) jurisdiction ii) Revenue Dept. iii) any other reason
New_Amalg	Active	New name
Old_Amalg	Inactive	Old name
Amalg	Act/Inact	It is either a new or an old amalgam
Contd.In	Active	Continued in from elsewhere
Contd.Out	Inactive	Continued out
Continued	Active	Either continued in or out - prov. info unclear
Discontinued	Inactive	Discontinued in or out
Old_Name	Inactive	Name Change - old name
New_Name	Active	Name Change - new name
NamChg	Act/Inact	Name Change - old or new (unknown which one)
Restored	Active	Name Restoration/Revival
Bankrupt	Active	Bankruptcy proceedings
Notice	Active	Intent to Dissolve
Reserved	Active	Provincial Proposed or Reserved (MB, NS, PEI)

New Brunswick has 1500 "previous names" (old names, old amalgamations, etc.), which are regarded as inactive.

Nova Scotia does not keep inactive names around for more than 1 day for name confusion purposes.

B.C. release theirs right away as well, although NUANS is now keeping them for slightly more than 2 years, for Federal name granting concerns.

Manitoba keeps inactive names for no more than two years.

Refer to section 4.6 **Provincial and Federal Legal and Status Mnemonics** for an up to date list of all NUANS Jurisdiction codes.

xi) Legal Status Date

This date field will continue to mean a great variety of things depending upon the type of name it is and which jurisdiction the record is from. There is no such thing as a simple legal status date.

N.S.	- Annual Return date or a real legal status change date.
N.B.	- Legal status change date or status change date of whether the company or corporation is in compliance for filing annual return.
PEI	- Does not use this field much
PQ	- NUANS will use the most recent of the legal status change and Name Change date.
ONT INC	- Legal Status change date provided
ONT BUS	- Legal Status change date provided
MAN INC	- Legal status change date
MAN BUS	- Business name renewal date
SASK	- Legal status change date
ALBERTA	- Legal status change date
ALBERTA BUS	- Legal status change date
B.C.	- Legal status change date
FEDERAL	- Legal status change date
CORBASE	- Legal status change date

4.5 The NUANS Data

Each jurisdiction provides NUANS data in electronic form, with the exception of Newfoundland and the two Territories. This exception data is captured by the Federal government and is called Corbase records. The following is a summary of what data is being searched per jurisdiction:

Province	Data Available	Not Available
Alberta	All corporations, societies, business names, reservations, professional corporations, extra- provincial	
B.C.	All corporations, societies, extra-provincial, reservations	Business names
CIIS (Federal)	All corporations, reservations, societies	
CORBASE	Information retrieved from provincial gazettes for Yukon, N.W.T. & Newfoundland	
Manitoba	All corporations, societies, business names, extra-provincial, reservations	
N. B.	All corporations, business names, societies, reservations, extra provincial	
Nova Scotia	All corporations, business names, societies, reservations, extra provincial	
Ontario	All corporations, business names, societies, reservations, extra provincial	
P.E.I.	All corporations, business names, Societies, reservations, extra provincial	
Quebec*	Most corporations, societies	Business names, Reservations Extra-provincial
Saskatchewan	All corporations, business names, societies, extra-provincials, reservations	
Trademarks	All registrations and applications, seeds, sections 9's	

*Quebec has stopped providing new data since January 1, 1994. All corporations registered prior to that date are in the NUANS base.

4.7 Provincial and Federal Legal and Status Mnemonics

4.7.1 Alberta Mnemonics

4.7.1.1 Alberta Legal Company Type Mnemonics

4.7.1.6 Alberta Trade Names

In July of 1990, the Alberta government finished the capture of all of the Alberta Trade Names. During this process, the government decided to capture all of the records on file, regardless of whether the names were active or inactive. It should be noted that there is no renewal period for Alberta Trade Names. The following is a description of the fields based on the registration period.

The first registrations were identified by the Original Judicial District. There were twelve (12) districts in all. The following is the breakdown of the codes.

CAL - CALGARY	EDM - EDMONTON
DHR - DRUMHELLER	FMC - FORT MACLEOD
GPR - GRANDE PRAIRIE	HNA - HANNA
LTH - LETHBRIDGE	MDH - MEDICINE HAT
PCR - PEACE RIVER	RDR - RED DEER
VGR - VEGREVILLE	WTK - WETASKWIN
NTW - NORTH WEST TERRITORIES registered prior to 1905	

In 1970, all registrations were done through Central Registry, which used only two codes:

CRY - CENTRAL REGISTRY - TRADE NAME & PARTNERSHIPS
CLP - CENTRAL REGISTRY - LIMITED PARTNERSHIPS

All Trade Names appear with the following codes:

NUANS		
Code	Report	Description
PT	Partnrship	Partnership
LP	LtdPartshp	Limited Partnership
TN	Trade_Name	Trade Name
AL	AbLtdLPsp	Alberta Limited Liability Partnership
EL	EPLtdLPsp	Extra-Provincial Limited Liability Partnership

4.7.1.7 Trade Name Status Codes

4.7.1.8 Trade Name Legal Events

NUANS Reports and Pre-Searches	Description
Decl	Declaration of Partnership
New_Name	New name
Commence	Date of first use
Diss	Dissolved
Term	Time limit (Up to year 2099)

4.7.1.9 Interpretation of Alberta Status Dates in NUANS Reports and NUANS Pre-Searches

Alberta status dates appearing in NUANS reports and in NUANS Pre-Searches should be interpreted as a revised date as opposed to a status date. The date appearing to the right hand side of Alberta status codes do not necessarily correspond to the adjacent active or inactive status code, but does confirm the names latest date of activity.

Example:

In the example below the status date appearing to the right of the Alberta status code “*Struck” does not necessarily suggest that the name was struck on 2002Ma14 . This date signifies that the latest date of activity on this account occurred on 2002Ma14, which may or may not be “*Struck”.

As it appears in the **NUANS Report**:

NORTHERN LIGHTS FIGURE SKATING CLUB	Ab 0505169862	1992Fe13
	Ab.Socty *Struck	2002Ma14

As it appears in the **Pre-Search System**:

NORTHERN LIGHTS FIGURE SKATING CLUB	AB-0505169862	1992FE13	*Struck
	Ab.Socty	2002Ma14
